

The Seer Course will walk you through the ancient Hebrew definition of the seeing gift and how it applies to you personally today.

In this course, you will learn practical applications of how to function as a seer, how God wants to communicate with you as a seer, and how He taught Jeremiah to see. You will grow in metaphorical understanding and be amazed as you realize all the implications and possibilities of this gift.

Most importantly, this course will change your life at a day-to-day level by radically heightening your relationship with God.

The Seer Course addresses these questions and more:

- How do you know you have this gift?
- How do you know you're not just making it up?
- Does seeing include more than just spiritual sight?
- How do you operate as a seer?
- What are orbs, flashes of lights, and strange things you think you see?
- What is the seer's role in relationship with God and others?

Jim Driscoll, co-author and teacher of this course, is the director and developer of the Stir the Water Network, which includes www.stirthewater.com and www.interpretdream.com. Traveling throughout the United States and Europe, he operates in a strong prophetic and seer anointing and has a developed gift for interpreting dreams. He and his wife, Mims, and their six children live in South Carolina.

The Prayer Furnace-Chicago is hosting this event
March 26 5-7 p.m.* and March 27 9 a.m.- 8 p.m.
